RoadMap

Digital VoIP Gateway

Mar 2025

New Product: MTG3000-126E1-SDH

- 2U Size
- Redundant MCUs
- Dual GE Ports
- 2*SDH User Boards (Redundant SFP ports for each boards)

Jun 2025

- MTG Series support **H.323** and **IPv6** protocol.
- MTG200 and MTG1000 support **TR069** and **OpenVPN**.
- The MTG2000B and MTG5000 adds **IP-IP E1 modes**.
- MTG Series support PSTN/SIP signaling visual maintenance tools.
- MTG Series support IP-PSTN call failure route redirection.
- MTG Series supports North American PRI protocol : Primary - NI2 (National ISDN-2), Primary - 4ESS/5ESS, and Primary - DMS 100/250.

Session Border Controller

Jan 2025

RoadMap

Session Border Controller

Mar 2025

1. SBC series supports HA dual-heartbeat deployment, further enhancing reliability.
2. SBC series supports SDP message transformation and SDP field passthrough.

Jun 2025

1. SBC series support local processing of Refer messages.
2. SBC300 and SBC1000 support OpenVPN

RoadMap

IP Phone

Jan 2025

4G IP Phone

- 2.3" Display
- Dual GE Ports
- Dual SIM (Single Standby)
- VoLTE Call

Mar 2025

Wi-Fi 6 IP Phone

- 2.3" Display
- Wi-Fi 6 Support

Jun 2025

Brand New Series IP Phone

Video Phone

Jun 2025

A808B

- 8" HD IPS Touchscreen
- 276 Touch Programmable Keys
- 1080P HD Video Calling
- 8MP HD Camera (with Privacy Cover)
- Supports 16 SIP Lines
- 10-Party Audio Conference and 4-Party Video Conference
- Built-in Bluetooth 5.0 and Dual-Band WiFi
- Supports HDMI, Type-C, and USB Interfaces
- Dual Gigabit Ports with PoE
- Android 14 System

RoadMap

Network Management System

Mar 2025

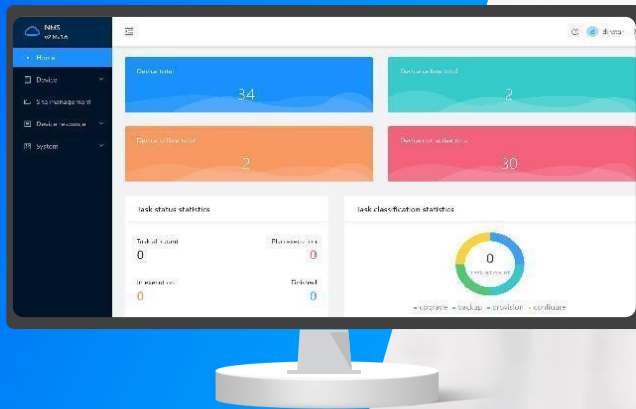

- Supports cluster deployment
- NMS captures signaling traces and displays flowcharts for easy analysis
- Enables bulk SIP account configuration for DAG Series
- Uploads logs to NMS for query and analysis

Jul 2025

- NMS northbound interface
- Supports integration with third-party systems for device management

Sep 2025

- Supports monitoring E1 status and extension status of all site devices on a single interface.
